PROFESSIONAL SUMMARY

As a software engineering student, I've embraced the importance of adaptability and teamwork through various experiences. Eager to learn and contribute, I'm looking for a co-op position where these skills can be applied and further developed, ensuring I add value while growing professionally.

SKILLS

➢ Fully Bilingual – French and English	➢ Proficient in any coding language asked of me. (Java, Python, C, C++, C#, html, javascript...)
➢ Proficient in 3D modeling in Blender	➢ Fast Learner
➢ Proficient in use of Unreal Engine and any similar game engines	➢ Technological Proficient
➢ Easily adaptable	➢ Efficient communicator

EXPERIENCE

Customer Service representative   **Summer 2023**
Golden Standard, Toronto
- **Finance Management:** Managed earnings using finance software with care and accuracy.
- **Customer Focus:** Ensured satisfaction through attentive service and response to feedback.
- **Team Collaboration:** Contributed to team efforts through close and flexible teamwork.

Information Services Specialist   **2021- 2022**
Charles Sauriol, Toronto
- **Digital Literacy:** Leveraged digital library systems for inventory management and user services, streamlining operations.
- **Information Management:** Catalogued and organized library resources, ensuring easy access and efficient retrieval.
- **Community Engagement:** Facilitated library events and programs, fostering a culture of learning and inclusivity.

EDUCATION
Bachelor, software engineering   **2022-2027**
Concordia University

PROJECTS AND PAST SOFTWARE EXPERIENCE
- **Leader of the robotics club:** at my past school I led a small team, as we built and programed a robot.
- **Newton project:** Instead of a hand-built project I convinced my teacher to let me build simple software that shows some of the physics we saw in class using unreal engines.
- **Personal Website:** A fun funky website that shows you a little bit about me and my personality
